

Patterson Civic Center  
Outdoor Ceremony with  
Banquet Dining Tables  
and a Dance Floor

\* Additional Chairs will need to be rented to accommodate this floorplan

The Patterson Civic Center is approximately 52ft x 122ft for approximately 6200 sqft. The attached floorplan is a sample layout of seating arrangements for Patterson Center which will seat 180 people Theatre Style on the West Lawn, and 188 people at Banquet Tables in the Hall, with a Dance Floor in the Auditorium. The Center can accommodate more people than this sample layout. According to the 1997 Standard Building Code, the square foot assembly space could support 600 people maximum. However, from a practical standpoint, this number should be 450 maximum. Table seating with maneuverable space would decrease this count.
